

Daan Reddy A

Tirupati, AP | +91 8919002614 | Portfolio | daanreddyalapaku2105@gmail.com | LinkedIn | github

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in Java, Spring Boot, React.js, FastAPI, PostgreSQL, and REST APIs. Skilled in building scalable backend services, frontend applications, and AI-powered solutions. Strong understanding of OOP concepts, API integration, database management, and problem-solving with experience in collaborative agile development environments.

TECHNICAL SKILLS

Technical Skills : Java, Python (Basics), SQL, HTML5, OOPs

Technologies/Frameworks : Servlets, JSP, JDBC, Spring Boot, REST APIs, Microservices, React.js, Bootstrap

Database/ Data Skills : Advanced SQL, MySQL, RDBMS, Database, SQL Server

Tools : Git, GitHub (CI/CD), MySQL Work-Bench,

Others : Data Structures Algorithms (Basics), Team Collaboration, Problem Solving, Analytical Thinking, Agile Methodologies

PROJECTS

AI-Powered Import Export Intelligence System | Python, FastAPI, React.js, Ollama LLM, PostgreSQL

May 2026

- Implemented a AI-Powered Import Export Management System using microservices architecture to automate shipment tracking, payment monitoring, shipment approvals, risk escalation, and international trade operations.
- Built an Analytics Dashboard with KPI tracking for revenue, pending payments, delayed shipments, high-risk clients, country-wise analytics, and real-time business reporting.
- Integrated REST APIs, Ollama Models, and Groq AI APIs to enable real-time risk analysis, AI-generated business insights, automated notifications, and smart reporting workflows.

Full-Stack Banking Web Application | Java (Servlets, JSP), MySQL, MVC

Oct 2025

- Created a Banking Management System with dedicated Admin and User panels to handle account management, customer activities, and daily banking operations smoothly.
- Used CRUD operations, SQL Triggers, and secure login authentication to simplify banking processes, improve transaction reliability, and strengthen data security.
- Developed features such as money transfers, transaction records, PDF statement downloads, and interactive dashboards using Java, JSP, JDBC, and MySQL.

EXPERIENCE

Software Engineering Intern | Shnoor International LLC

Remote (WFH) Mar 2026 –Present

- Developing scalable full-stack applications using React.js, Node.js, Python, FastAPI, and PostgreSQL and RESTful backend services using Java Spring Boot and PostgreSQL for scalable business operations.
- Integrated AI-based technologies such as Ollama LLM, Groq API, and external API services to enable intelligent automation and real-time data analysis.
- Contributing to backend development, API integration, performance optimization, debugging, and collaborative feature development in an agile environment.

Web Developer | VaultSphereAI Technologies

Kuppam, India Oct 2024 – Jun 2025

- Built and maintained real-time web applications using React.js, Node.js, MongoDB, HTML, CSS, and JavaScript to deliver responsive and user-friendly interfaces.
- Worked with API integrations, XAMPP Server, and SQL databases to support smooth application functionality and efficient data management.
- Played a key role in frontend development and database operations while also assisting in backend support, debugging, and feature enhancement within the development team.

EDUCATION

Kuppam Engineering College

Computer Science and Engineering | per : 77.5%

August 2023 – April 2026

Sree Vidyanikethan Engineering College

Electrical and Electronics Engineering | per: 85.6%

December 2020 – June 2023

ACHIEVEMENTS AND CERTIFICATIONS

Web Development | (IBM / edX)

May 2024

MySQL Database | Oracle DevGym

July 2025

Full Stack Java Development Training | Completed under G-Tech JainX

Aug 2025

Graduated with First Class with Distinction in Diploma (EEE) Overall Score: 85.6%

June 2023
